Cara baca. Laku/hari = unit terjual 90 hari terakhir ÷ 90 (semua kanal; baris kasir tanpa qty dihitung 1). Tersedia = stok tersedia di toko dan gudang online (pameran tidak dihitung). Cukup (hari) = (tersedia + dipesan) ÷ laku/hari. KRITIS = habis sebelum pesanan yang dibuat hari ini bisa tiba (cukup kurang dari lead time); SEGERA = kurang dari lead time + 30 hari; PANTAU = kurang dari lead time + 60 hari. Saran pesan = kebutuhan selama lead time + 30 hari, dikurangi stok tersedia dan yang sudah dipesan. Lead time "diukur" = median jarak tanggal PO ke tanggal tagihan pembelian di Jubelio (minimal 2 PO); "asumsi" = 90 hari. Pemasok = pemasok PO terakhir untuk barang itu di Jubelio; untuk toko Wonder sebagian besar adalah PT. Sinar Star Books (gudang distribusi), sehingga lead time-nya pendek. Penerbit dan lead time impor ada di sistem Sinar (Accurate), belum di daftar ini. Harga pokok dan syarat kontrak tidak dicantumkan.
